Custom Masonry Fireplaces

Custom fireplaces are a growing trend in the United States. Whether it be setting the mood for a romantic night with a loved one, or a display of wealth and creativity in a five star hotel lobby, fireplaces come in all shapes and sizes. Our mission at Mason-Lite is to provide our customers with the perfect fireplace to set the tone and style for their specific needs, even if it requires customization.

Mason-Lite offers multiple options of custom fireplaces to fit your style. For the Rumford style tall and narrow firebox look, consider one of our standard units with height extensions (sold separately) to increase the height of your fireplace in 8" increments. On the other hand, Mason-lite can provide the Linear fireplaces, Shortened Wide options with our standard units and reduce the height kits in 8" increments until the ideal height is reached (Leaving the width standard). The second option allows an even more unique look, by filling out our custom order form at the link below, provide us with the specific dimensions you desire and our engineers will prepare a quote.

The Rumford and Linear styles are just the beginning of the possibilities when it comes to custom fireplaces. Some other custom fireplace options include three and four sided artistic see-through units.

For all of your custom needs visit:
